best

A member of the FAS Gov Suite™ of integrated asset management solutions.

For maximum performance and scalability in fixed asset management, FAS Gov Asset Accounting for SQL Server provides advanced features and processing speed for larger governmental, educational, and non-profit organizations, and helps organizations comply with GASB 34/35 requirements. FAS Gov Asset Accounting for SQL Server delivers the same dependable depreciation calculations, financial reports, and detailed asset management as FAS Gov Asset Accounting, but leverages the power of Microsoft® SQL Server to offer a scalable client/server architecture. If you're managing over 10,000 fixed assets, FAS Gov Asset Accounting for SQL Server is your organization's ideal solution.

Gain greater speed, flexibility and scalability.

- Enhanced history tracking which allows capture of critical "before and after" asset conditions
- Powerful, flexible reporting in as little as one-tenth the time it takes other systems
- Alternative accounting periods including 13 period, 52/53 week, 4/4/5, 4/5/4 or 5/4/4 accounting
- Faster processing times with the SQL Server and Windows NT® Server infrastructures
- Scalability with client/server architecture and support for multiple databases
- Seamless integration with FAS Gov Asset Inventory™ for SQL Server
