## A member of the FAS Gov Suite™ of integrated asset management solutions.

FAS Gov Asset Inventory provides complete asset inventory tracking and reconciliation capabilities for governmental, educational, and non-profit organizations needing help with GASB 34/35 requirements. Using state-of-the-art bar code technology, including Windows® CE and Palm OS® devices, FAS Gov Asset Inventory creates and tracks multiple physical inventories of assets quickly and efficiently—so you achieve tighter control of your fixed assets.

## Complete control over your entire asset inventory at every step.

- Integrates seamlessly with FAS Gov Asset Accounting™, allowing physical inventory data to be easily reconciled with existing asset data
- Conduct multiple inventories concurrently at various sites and reconcile data at one central location
- Supports both types of inventories—*Baseline* to add new assets, and *Dynamic* to verify any data on existing assets
- Track assets at remote locations, where inventories can be conducted by exchanging data via email attachments
- "Import/Export Helper" allows you to import data from, or export data to, the most popular spreadsheets and database applications

Reconciles—in real-time—  
your physical inventory  
data with your financial  
records.

Hand held devices make  
conducting inventory easy

- Windows CE and Palm OS devices make it easy to perform inventories with less expensive bar code readers containing more memory
- On-screen "Virtual Reader" lets you perform a test inventory—and even add assets—before you invest in hardware
- Fifty-one fully customizable fields with the ability to control data entry and notes, plus images to describe each asset record
- "Secondary Tag" field allows you to summarize assets by room location while conducting inventory
- "Groups," "Templates," "SmartLists" and "Search-and-Replace" features provide powerful asset management tools and streamline inventory methodologies
- "Detail View" provides complete information including property type, class, acquisition date, supplier location, GL asset account, accumulated and expense account numbers, custodian, and more
