- Installation & Implementation
- Fixed Asset Data Conversions
- Custom Report Writing Services
- FAS Product Upgrades
- FAS Asset Inventory Services

best

A member of the FAS Gov Suite™ of integrated asset management solutions.

For maximum performance and scalability in fixed asset management, FAS Gov Asset Inventory for SQL Server provides complete asset inventory tracking and reconciliation capabilities for governmental, educational, and non-profit organizations with SQL Server based computing environments. Using state-of-the-art bar code technology, including Windows® CE and Palm OS® devices, FAS Gov Asset Inventory creates and tracks multiple physical inventories of assets quickly and efficiently—so you achieve tighter control of your fixed assets.

Gain greater speed and scalability for tracking assets.

- Seamless integration with FAS Gov Asset Accounting™ for SQL Server
- Enhanced history tracking which allows capture of critical “before and after” asset events
- Faster processing times with the SQL Server infrastructure
- Scalability with client/server architecture and support for multiple databases
- Conduct multiple inventories concurrently at various sites and reconcile data at one central location
- Supports both types of inventories—*Baseline* to add new assets, and *Dynamic* to verify any data on existing assets

Taylor Made Software, Inc.

FASGOV Asset Inventory™ for SQL Server

Reconciles—in real-time—
your physical inventory
data with your financial
records.

Hand held devices make
conducting inventory easy

- Track assets at remote locations, where inventories can be conducted by exchanging data via email attachments
- “Import/Export Helper” allows you to import data from, or export data to, the most popular spreadsheets and database applications
- Windows CE and Palm OS devices make it easy to perform inventories with less expensive bar code readers containing more memory
- On-screen “Virtual Reader” lets you perform a test inventory—and even add assets—before you invest in hardware
- Fifty-one fully customizable fields with the ability to control data entry and notes, plus images to describe each asset record
- “Secondary Tag” field allows you to summarize assets by room location while conducting inventory

The FASGOV™ Family includes:

- FASGOV SUITE™
- FASGOV SUITE for SQL Server
FAS GOV Asset Accounting™ for SQL Server
FAS GOV Asset Inventory™ for SQL Server
FAS Report Writer™
