**best**

## A member of the FAS Suite® of integrated asset management solutions.

For maximum performance and scalability in fixed asset management, FAS Asset Accounting for SQL Server provides advanced features and processing speed for larger businesses. FAS Asset Accounting for SQL Server delivers the same dependable depreciation calculations, financial reports, and detailed asset management as FAS Asset Accounting, but leverages the power of Microsoft® SQL Server to offer a scalable client/server architecture. If you're managing over 10,000 fixed assets, FAS Asset Accounting for SQL Server is your company's ideal solution.

## Gain greater speed, flexibility and scalability.

- Alternative accounting periods including 13 period, 52/53 week, 4/4/5, 4/5/4 or 5/4/4 accounting
- Seven books, all visible on one screen—Internal, Tax, ACE, AMT, State, and two user-defined custom books
- Enhanced history tracking which allows capture of critical “before and after” asset conditions
- Faster processing times with the SQL Server and Windows NT® Server infrastructures
- Scalability with client/server architecture and support for multiple databases
- Seamless integration with FAS Asset Inventory™ for SQL Server
- Includes FAS Report Writer™ for custom reports with graphics, drilldown, and batch reporting capabilities
- Over 300,000 IRS tax rules and GAAP supported depreciation methods

*(over, please...)*

# FAS Asset Accounting™ for SQL Server

Automatically calculates AMT and ACE schedules using more than 20 standard depreciation methods—including methods which can be customized by your company.

- Automatic calculation of AMT and ACE schedules and over 20 methods of depreciation—including MACRS 150% and 200% (formulas and tables), ACRS, Straight Line, Modified Straight Line (formulas and tables), Declining Balance, Sum-of-the-Years-Digits, and customized depreciation methods

## Customizable features help increase productivity.

- Easy-to-use Graphical Interface (GUI)
- Fully customizable data entry screen including field names, field lengths, field pictures, and field prompts—fields can even be turned off completely
- Customizable “SmartLists” for fast, accurate asset entry
- Powerful “Group Manager” for instant queries and reusable group definitions
- “Group View” for working with and viewing multiple assets simultaneously
- “Tab Design” lets you instantly switch between Main, Transfer, and Disposal functions
