

**Best Software's Abra Enterprise™  
– a Positive HR/Payroll Diagnosis For AmeriPath Employees**

Testing human tissue for abnormalities is a tedious task, and the last thing clinicians at AmeriPath in Riviera Beach, Florida, need is to have to do additional research on their benefits and company information. Realizing this, the human resources department decided to adopt Best Software's Abra Enterprise to streamline data input and tracking of employee information. Abra Enterprise today provides AmeriPath with the ability to track their 2,500 employees' salaries and promotions, create reports and monitor benefit plans and elections.

**Customer**

Ameripath, Inc., a leading national provider of cancer diagnostics, genomic, and related information services

**Challenge**

Facilitate employee online access to HR/payroll information, create reports and monitor benefit plans

**Solution**

Abra Enterprise™

**Results**

- Streamlined data entry and maintenance
- Enhanced information access

**"Implementing Abra Enterprise™ has made it easier to clean up unnecessary and old data, said David Pyc, eHR Manager for AmeriPath.**

**"When the company acquired 500 employees, entering their employee data was a snap compared to the manual processes of previous years."**

AmeriPath is in the process of customizing Abra's Roles-based module to extend access to company information to its employees in 52 remote locations across the U.S.

The **ABRA** Enterprise™ family includes:

- Abra Enterprise™ Human Resources
- Abra Enterprise™ Payroll
- Abra Enterprise™ Employee and Manager Roles
